

RSM-80

## ROLLER - STRAIGHTENING MACHINE

*FAST + PRECISE  
STRAIGHTENING WITH  
ROLLERS*

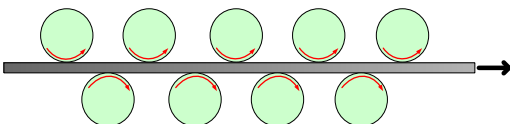

### FOR SHEET AND FLAT STEEL

The robust construction of the RSM-80 and RSM-240 roller straightener guarantees the best straightening results on the workpiece, reliable operation with a long lifetime and low maintenance.

The compact design of the machine allows easy handling even of larger and heavier sheets.

The straightening rolls of the machine are adjusted to the workpiece with a digital handwheel. All straightening rolls are driven by a powerful motor.

The machine is mobile and can be easily transported by forklift or pallet truck.

### RSM-80

Number of rolls	9 rolls
Straightening capacity	80 x 12 mm / 50 x 15 mm *
Dimension	1425 x 450 x 1140 mm
Weight	300 kg

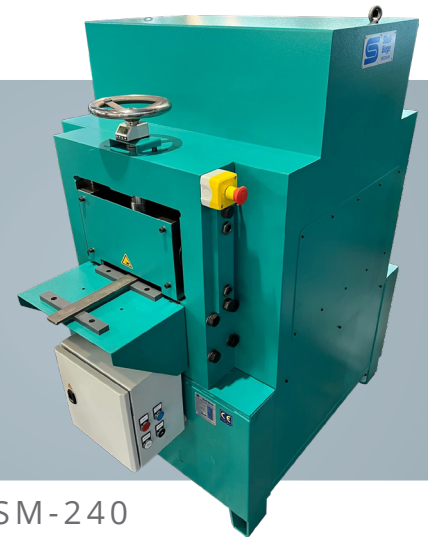

### RSM-240

Number of rolls	11 rolls
Straightening capacity	240 x 12 mm / 150 x 15 mm *
Dimension	1340 x 830 x 1485 mm
Weight	1'800 kg

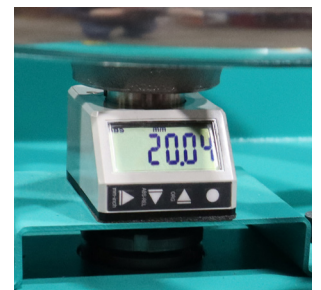

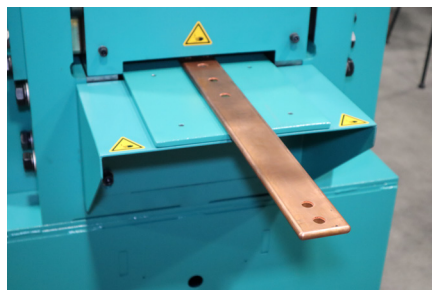

\* S235 with tensile strength 420 N/mm<sup>2</sup> (20 mm on request)

## THIS MACHINE IMPRESSES WITH ITS VERY USER-FRIENDLY OPERATION

The machine allows the quick straightening of flat material very easily for every operator. Working with this time-saving machine is learned in a short time.

RSM-240

### STRAIGHTENING OF STEEL, COPPER AND ALUMINIUM

Flat steel and sheets can be straightened precisely and quickly. On request, we can also supply the machine for sheet thicknesses up to 20 mm.

### DIGITAL ADJUSTMENT OF THE STRAIGHTENING ROLLERS

By handwheel with digital display, the straightening rolls can be adjusted very precisely for precise straightening results.

SINCE 1936
